nijibolutife@gmail.com

A dedicated and results-driven WordPress Developer with 3+ years of experience in delivering high-quality websites. Proven expertise in WordPress website customization using powerful programming Languages such as PHP JavaScript and AJAX. Seeking opportunities to contribute my skills and knowledge to drive web development projects to success.

EXPERIENCE

Plastic Lumber Yard, Plymouth, PA — Web Developer

November 2020–PRESENT

- Created a complex and comprehensive shipping system to streamline and optimize the shipping process, resulting in improved efficiency and reduced shipping errors as well as provide seamless user experience for the customers.
- Developed and automated sales and invoice generation systems using popular software such as HubSpot and Intuit's QuickBooks, increasing the accuracy and speed of financial transactions.
- Successfully resolved issues related to site speed, server errors, and database errors, ensuring a seamless user experience and minimizing downtime.
- Maintained the website's relevance and competitiveness by keeping it up to date with trending and updated software systems, including PHP updates and database maintenance.
- Managed Woocommerce product uploads and categories, leading to a significant boost in site traffic and sales.
- Installed and configured several essential plugins to enhance website functionality and user experience.

Notable Projects:

- Plasticlumberyard.com
- Railingaluminum.com
